Concretum Construction Science AG has Successfully Completed Growth Financing

Zurich/Switzerland, Oct. 31, 2007 – Concretum Construction Science AG completed growth financing with Core Capital Partners AG (CC Private Equity Partners Ltd.) on October 15 2007. This makes it possible for us to penetrate additional, promising markets quickly. The Advisory Board of Concretum is convinced that CC Private Equity Partners Ltd. is the right investor and partner for successful growth.

Concretum Construction Science AG was founded in 2001 as a consulting company in the field of cement-based construction materials as a spin-off of ETH Zurich. Following five years of successful consulting work in Switzerland and other countries, a new business division was founded at the end of 2006, which develops, produces and markets its own products.

Core Capital Partners AG (as representative of CC Private Equity Partners Ltd.) is an exclusive consultant in the private equity market. The investment focus is on the sectors of biotechnology, medical technology, life science and industrial areas with innovative materials. Its geographic focus is on Switzerland and neighboring countries.
