

## More Reliable than Concrete

### Concrete Plants and Concretum: A Strong Partnership

Concretum Hightech Concrete is produced at qualified concrete plants. The precise surveillance of the given mix design is guaranteed by an automated production process. Moreover, the concrete plants provide standard components such as cement, sand, gravel and water at low costs.

Concretum Hightech Concrete makes owners, contractors and concrete producers sleep peacefully!

#### Advantages:

- reliable quality
- simple production
- efficient casting
- concrete according to standard EN 206-1

More reliable than concrete  
- strong partnership with  
concrete producers
